Fresh and creamy goats cheese, enriched with garlic and herbs

### **about the cheese**

A fresh creamy goats cheese with a mousse like texture, gently speckled with wild garlic and herbs

The cheese has a light and citrusy flavour with a delicate herby finish which still allows the quality of the cheese to shine through

### **about the cheesemakers**

Dan and Louise Goodman, run their dairy goat farm in Gloucestershire, producing handcrafted goat's cheese and yoghurt from the milk produced by their goats meaning you can be assured that every step taken to produce Windrush is with love and care and zero food miles
